

VIPUL PATIL

Scientific Content Writer | Biology SME | EdTech & VR Content Specialist

vipulpatil6667@gmail.com | +91 8602356667 | Bhopal, India | LinkedIn: linkedin.com/in/vipul-patil-552500106

PROFESSIONAL SUMMARY

Biology Subject Matter Expert and Scientific Content Writer with 5+ years of experience in biology education, scientific content development, content validation, and EdTech. Currently write science-focused educational content and production-ready scripts for immersive VR learning experiences, including student-friendly narration, visual instructions, and curriculum-aligned learning content. Experienced in translating complex biology and life-science concepts into clear educational experiences while maintaining scientific accuracy, logical consistency, and production readiness. Additional experience in academic assessment, teaching, content quality assurance, and AI-assisted content workflows.

CORE SKILLS

Scientific Content: Scientific Writing, Biology Content Development, Biology SME, Scientific Fact-Checking, Scientific Validation, Technical Content, Scriptwriting

EdTech & Learning: EdTech Content Development, Educational Content, Instructional Content Development, Curriculum Alignment, Learning Objectives, Assessment Content, Pedagogy

VR & Digital Content: VR Educational Content, Immersive Learning Content, VR Script Development, Educational VR Narration, Visual Instructions, Visual-Narration Alignment, Production-Ready Scripts

Content Quality: Content Review, Quality Assurance (QA), Logical Consistency, Text Editing, Factual Verification, Content Refinement, Curriculum Review

AI & Workflow: Prompt Engineering, AI-Assisted Content Development & Review, ChatGPT, Google AI Pro, Agile, Scrum, Sprint Planning

Scientific Domain: Microbiology, Life Sciences, Biotechnology, Anatomy & Physiology, Environmental Microbiology, Clinical Diagnostics, Laboratory Research, Metagenomics

PROFESSIONAL EXPERIENCE

Spark VR Pvt. Ltd.

Content Creative Executive | February 2026 – Present | Indore, India

- Write and develop science-focused educational content and production-ready scripts for immersive VR learning experiences.
- Translate complex science concepts into clear, student-friendly narration and structured visual instructions for VR production.
- Develop content across science learning topics with attention to learning objectives, curriculum alignment, scientific accuracy, and age-appropriate language.
- Collaborate with content, technical, and production teams to align narration, visuals, interactions, scene flow, and learning objectives.
- Review and refine VR educational scripts and content for scientific accuracy, logical consistency, clarity, and production readiness.
- Use generative AI tools to support content development and review outputs for factual accuracy, context, structure, format alignment, and flow.

Phibonacci Solutions Pvt. Ltd.

Subject Matter Expert – Biology (Scientific Content Validation) | November 2023 – January 2026 | Ahmedabad, India

- Reviewed and validated academic Biology content and technical assessment materials for scientific accuracy, clarity, and curriculum alignment.
- Audited experimental content, digital learning modules, and assessment materials to identify scientific errors, inconsistencies, and content-quality issues.
- Supported end-to-end content evaluation and production workflows in collaboration with QA teams, contributing to standardized review and documentation processes.
- Participated in Agile-style sprint planning, daily stand-ups, and retrospective discussions across cross-functional content workflows.

MDN Future School & Sanskar Innovative School

PGT Biology & Scientific Educator | January 2022 – December 2023

- Developed and delivered structured Biology lessons, simplifying complex metabolic, genetic, and physiological concepts for students.
- Designed digital evaluation systems and tracked student performance data, contributing to a reported 12% improvement in standardized assessment outcomes.

Rabindranath Tagore University

Assistant Professor – Microbiology | September 2019 – July 2022 | Bhopal, India

- Delivered undergraduate and postgraduate lectures in environmental microbiology, clinical diagnostics, and computational laboratory methodologies.
- Managed laboratory research experiments and microbiology data analysis while maintaining scientific-method and laboratory safety standards.

Mystance Consultancy (Sanskar Valley School)

Remedial Data & Education Specialist | June 2019 – January 2020 | Bhopal, India

- Analyzed student performance data to identify conceptual learning gaps and support targeted educational interventions.
- Coordinated with school administration to align intervention strategies, contributing to a reported 25% improvement in targeted student retention metrics.

EDUCATION

M.Sc. in Microbiology | Barkatullah University | 2018 | Score: 84%

Bachelor of Education (B.Ed.) | Barkatullah University | 2021 | Score: 80%

B.Sc. in Microbiology | Barkatullah University | 2016 | Score: 73%
